

# Dino

Be inspired by the gallery, [click here](#).

A new rounded commercial spa Dino complements a range of commercial whirlpools ComfortCLUB Spa. Dino corresponds with the German standard DIN 19643-1: 2012-12 and fully complies with the strictest criteria for public facilities in Europe. Compared with a similar model Polo a novelty Dino has greater depth, which contributes significantly to the greater capacity, which is 6-7 persons. Modern and ergonomic design complements the elegant handle for secure input and output from the spa. Functional massage is assured with water and air jets, spaced around the perimeter of the whirlpool. Dino finds its use in the most demanding public facilities such as water parks, as well as in hotels and other wellness centers.

## STANDARD EQUIPMENT
